   ___ The outcomes assessment plan that we have previously submitted is still current.
   ___ Changes have been made and the revised plan is attached.
   ___ We have made changes and the revised plan will be sent to the IACBE by: ________________

3. Complete the Outcomes Assessment Results form below and include it with this annual report to the IACBE. **Note:** Section II of the form (Operational Assessment) needs to be completed only if you received first-time accreditation or reaffirmation of accreditation after January 1, 2011.

   An example of a completed form can be found in a separate document that is available for download on the IACBE’s website at: www.iacbe.org/accreditation-documents.asp.

   Section I (Student Learning Assessment) of the Outcomes Assessment Results form must be completed for each business program that is accredited by the IACBE (i.e., a separate table must be provided for each program).

   Performance targets/criteria are the criteria used by the academic business unit in evaluating assessment results to determine whether intended outcomes have been achieved. For example, if the academic business unit is using the ETS Major Field Test as one of its direct measures of student learning, then a performance target might be that the Institutional Mean Total Score on the exam will place students in the upper quartile nationally; or if the academic business unit is using a comprehensive project in a capstone course as a direct measure of student learning, then a performance target might be that 80% of the students will score at the highest level (e.g., proficient, exemplary, etc.) on each project evaluation criterion.

   Remember that your outcomes assessment plan needs to include two or more direct and two or more indirect measures of student learning. These measures should be used at the program level.

   At the bottom of each section of the form, space is provided to identify changes and improvements that you plan to make as a result of your assessment activity.
Italicized entries in the form represent areas where the academic business unit should insert its own assessment information. Add tables and insert rows in the tables as needed.

Other Issues

Briefly comment on other issues pertaining to your academic business unit that you would like to share with the IACBE.

Because the School of New Dimensions is a lock-step program, with cohorts beginning and ending at various times throughout the year, our review for this assessment period covers August 2010 – July 2011.

**Assessment Tools for Intended Student Learning Outcomes—Direct Measures of Student Learning:**

| 1. ETS Proficiency Profile Test (PP) administered in the capstone course of the ASBM program |  |
| 2. Capstone course project | 100% of the cohort to attain a passing grade in the capstone course. |

**Assessment Tools for Intended Student Learning Outcomes—Indirect Measures of Student Learning:**

| 1. Online Course Evaluation (OCE) | On a scale of 1-5, where 1=N/A; 2=poor; 3=fair; 4=good; and 5=excellent, for three areas: Curriculum, Instructor, and learning Teams, scores for each course in the program should average a minimum of 3.00 out of 5.00 for each of the selected categories. |
| 2. Faculty completed course grids | On a scale of 1-5, where 1=unacceptable; 2=poor; 3=fair; 4=good; and 5=excellent, the target score for the courses analyzed in the ASBM program (EN105A) is a minimum of 3.00 out of 5.00 for each of the
selected categories of mechanics of writing, forms of writing, research and citation, and content.

<th>Proposed Courses of Action for Improvement in Areas for which Performance Targets Were Not Met: (All targets were met, and the following continues)</th>

<tr>
<td>1. The results of the ETS PP Test administered to all graduating ND students in the capstone course have indicated a consistency of scores over the last five years in the areas of: humanities, social sciences, college level reading, college level writing, and critical thinking. For the portion on using math data, scores were lower than expected as was accounting. Math assessments have been developed to measure students’ competency upon entering the ASBM program. Tutoring opportunities have been added services. The math assessment will be administered at the end of the cohorts program and compared to entry scores as another measure of competency. A review will be conducted by the Dean and faculty to add an accounting course or component to the curriculum.</td>
</tr>
<tr>
<td>2. The recent development of a rubric for the written and oral presentation requirements of the capstone project was created to give students guidance on expectations of their work and also as a standard means to assess student work across cohorts. While targets have been met, our goal is to adjust our measure to be based on a rubric and not on a course grade. Our plan for 2011-12 is to complete development of a rubric for the capstone final project and presentation. We will then require each student to attain a good (3) or exemplary (4) score based on the capstone rubric for the final project.</td>

 gratifying to learn that two of the highest ratings were “Demonstrating subject matter expertise”, and “Providing timely and relevant feedback”, major objectives for instructors in the program.

4. The Collaborative College Writing course, EN105-A, was rewritten with a focus on emphasizing writing mechanics, rhetorical strategies, research and citation, and writing content. Rubrics were created to guide instructors through consistent application of course assessment measures.
